

MORNING APPEAL

FRIDAY, APRIL 18

THE SCHOOL LANDS.

The Amount which Goes to the School Fund.
The following correspondence speaks for itself:

Carson, April 16, 1890.

General J. E. Jones, State Land Register, Sir:—Will you please inform me as to the number of acres decided to the State by the United States during the past year, and what proportion of the same goes into the school fund.

And oblige,

S. P. DAVIS, ED. APPEAL.

STATE LAND OFFICE, CARSON CITY, NEV., April 17.
S. P. DAVIS, Esq., Ed. APPEAL, Sir:—Replying to yours of yesterday, there was decided to the State by the United States, as follows:

	ACRES
June 21, 1889	17,219 92
June 21, 1889	13,424 62
July 1, 1889	125,865 94
February 8, 1890	3,234 13
February 8, 1890	220,322 18

Total. 380,322 18

On at least one-half of which contracts have already been signed and the balance nearing completion as rapidly as my office force can do it. The interest on above, which represents the number of dollars value, is 6 per cent. per annum; all of which goes into the distribution School Fund.

Respectfully,
J. E. JONES.

The above is from an official source and only tells the story to date. The officers of the Land office inform the editor of the APPEAL that inside of two months they expect 250,000 acres more and inside of two years 750,000 acres in addition.

This would reduce the tax for school purposes to 25 cents on the \$100. The amount of land contracted and paid for since January 1st will place \$30,000 more in the School fund and of this amount \$1,500 goes to Ormsby District No. 1, which is the Carson City District.

Now, suppose the proposed school building and improvements cost \$30,000, the additional amount of \$1,500 now going each year to this District would in twenty-five years (the life of the bonds) amount to \$37,500, or \$7,500 more than necessary. This only represents the present resources of the fund, with a million acres more inside of two years, the additional sum going to the schools yearly amounting to \$4,500 yearly, would in twenty-five years amount to \$112,500, money which does not come out of the pockets of the tax-payers, but out of the pockets of land buyers.

Reducing the proposition down as plainly as possible, it is this: The sum of money received by the school fund from the State land sales since January 1, 1890 will reduce the school tax to 40 cents on the 100. If the School house is built the saving will not reduce the tax to 40 cents on the 100, but it will still be less than 50 cents on the 100.

School taxes will be naturally reduced this year by State Land sales. If the school house is built they will not be reduced so much, but School taxes will be still less than in 1889.

The Elko Independent's intimation that Senator Jones is "falling down" on the silver question, is too utterly absurd. The Senator will come nearer securing all that can be had for silver than any man in the country. He has been, now is, and always will be, the greatest champion of the silver cause. When he "falls down" the little silver tots of the Independent office will have time to play marbles.—Journal.

A Salt Lake man thought it was "real smart" to April fool a livery firm by summoning a team and when it was sent to his hotel telling the livery man it was April fool day. He was forced to pay for the team he ordered, and now he thinks he fooled the wrong man.

Boxes .50
Box Seats now opened at the Arlington House.

From Sample to Gown.

UR shelves and counters are taxed to make room for the new stuffs that our buyers are sending from Europe and our own New York. Gay stuffs, sombre stuffs, with the delightful stamp of newness!

No reason now why a woman in town or out of town should be badly dressed. Behar purselicht or heavy, we can meet the demand for the beautiful in dress materials. The out-of-town woman selects from a generous envelope of samples; her city sister sees the pieces from which the samples were cut, but learns no more.

Samples are straightforward. They tell a plain tale of quality, width and price. In these days of steam, an order is mailed, and presto! the package in return is at your door. Before catalogues were published and railroads traversed California, the luckless housewife was compelled to take such goods as the neighboring stores supplied. Now, an out-of-town customer shops with almost as wide a choice as her city sister and may wear garments of equal style. Why should she not? The fashion magazines go everywhere; the Sunday newspaper has a fashion column; the great store advertisements are fashion news—the best of all perhaps.

Send for catalogue, as that is a great help in ordering. Also send for samples of such dress materials as you may think of buying, stating colors and about the prices you wish to pay.

HENRIETTA CLOTH, 50 CENTS.

We are meeting with great success in our all-wool Henriettas at fifty cents a yard. They have a silky finish and are of fine soft texture. These Henriettas are full forty inches wide, which is unusually wide in goods at this price. May be had in black and twenty leading colors. If you send for samples, state colors preferred.
